

CITY OF WALNUT GROVE

June 29th, 2023 1021 PARK STREET MUNICIPAL BUILDING MAYOR AND COUNCIL

Council Work Session Minutes

ELECTED OFFICIALS PRESENT: STAFF PRESENT:

Mayor - Mark Moore Mayor Pro Tem - Stephanie Moncrief Council Members -Linda Pilgrim Erica Miles City Clerk – Kimberly Whitlow City Attorney - Tony Powell Assistant Attorney - Jay Crowley P & Z Chairman- Joe Walter

OTHERS PRESENT:

- I. CALL TO ORDER Mayor Mark Moore
- II. INVOCATION Tony Powell
- III. PLEDGE OF ALLEGIANCE All Participated
- IV. ROLL CALL Everyone Present
- V. AGENDA APPROVAL Mayor Moore called for a motion to approve the agenda, Erica Miles motioned, Linda Pilgrim seconded. No discussion. Pass unanimously.

VI. OLD BUSINESS

A. REZONING APPLICATION FOR FORREST GLEN- Joe Walter explains the map amendment and further states a public hearing has been held on this matter. Joe states he would like the council to decide on the more appropriate zoning district for Forrest Glen Mobile Home Subdivision. Joe states that R3 allows manufactured home housing. Mayor Moore asks if there is any discussion from the council. Erica Miles asks if any codes are being broken. Joe explains that it's lawful and compliant. Joe says it would be beneficial to zone this subdivision to R3 as it would make it easier for the people who want to have modular homes in this area. Mayor Moore inquires about tiny homes being built in the R3 zone and Joe explains that it would be allowed. Stephanie Moncrief asked for examples of a modular home and Joe gives the example of a home that is made off site and it moved to a site and assembled. Erica Miles expressed her concern about septic systems being approved by environmental health for these homes. Mayor Moore states that the biggest decision for council would be for council to decide to proper square footage for these homes. Tony Powell comments on the legal part of

the minimum square footage of the homes that can be built within Forrest Glen.

- B. EMERALD COVE CORRECT PAVING- Stephanie Moncrief asks who we mailed out RFP's to for the paving of Emeral Cove. Major Moore said he was not involved in that, and Stephanie would have to speak to the City Clerk to get that information. Stephanie said she would get with the City Clerk at a later time to obtain that information.
- C. MAYOR AND COUNCIL MEMBER MONTHLY STIPEND /PAYMENT- Linda Pilgrim says she does not agree because there are too many other needs of the city, and the money could be better spent elsewhere. Major Moore offers an alternative of doing a retirement package instead of a pay increase. Erica Miles agrees with the increase in the payment. She says the increase in payment will allow her to do more as a council member. Stephanie Moncrief also agrees with the increase.
- D. CASE #WGV-23-02- Joe Walter states that Reliant Homes have 170 acres off Cannon Farm Road that is currently zoned R1 and it was previously zoned for a subdivision prior the recession. There were concerns about connecting to the sewer systems. The applicant has filed a variance for the city to seek relief from having to connect to the sewer system. The planning commission sent forth a recommendation for approval with conditions. The conditions that were suggested: the applicant must submit all subdivision development plans to the City of Walnut Grove. This plan should include a transition zoning buffer and no land disturbance will be allowed within a 25 ft buffer. Applicants must obtain approval from Walton County for access on Cannon Farm Road and will fund any improvements required by the county to improve the roadway. Mayor Moore asked the applicant the smallest lot size and they answered that 1 acre will be the smallest. The minimum square footage for the houses is 1800sq feet with the largest square foot house being 2800ft-3800ft. The amenity package will include a playground with a single restroom. The neighborhood will be gated with one entrance.
- E. CASE #WGRZ-23-2- Application was filed by Kippy Clark, Alexander Brock, and William Paul Jones. The location is located on Walnut Grove Parkway on the SW side of the roundabout in zone AG. This case was advertised, and the

public hearing was held by the Planning Commission on May 18th 2023. The planning commission felt there was more discussion needed so they tabled it until their June 15th meeting. One of the items that was brought up at the Planning Commission meeting was the traffic that would be generated by this facility. The Planning Commission requested that the applicant provides a traffic study and at the June 15th meeting the traffic study was not available. The traffic study should be completed by the July 13th 2023 council meeting. Joe Walter stated that this new development could bring high levels of traffic that are concerning. The Planning Commission likes the concept and sent it for the council's discussion and approval. The applicants were not present at the work session. The conditions that were recommended by the Planning Commission include: The owner and the city should enter into a development agreement. The development will be designed and developed with a plan that is approved by Major Moore and the council. All landscaping, lighting etc. will be approved by the city. They shall only build what is approved by the council. The development can vary in the following manner: Allow drive through windows at areas where drive up lanes are available. Allow the commercial square footage to exceed 10,000 sq feet. Required parking may be reduced depending on what the traffic study shows. Any city owned parking may be reduced following the traffic study. The most recent Master Plan that was submitted showed all require parking onsite. The 25 ft transition buffer may be reduced down to 12.5 feet with the construction of a 6ft tall decorative fence along the property line. If and when the joining properties are zoned to nonresidential district, the buffer will be waved. The PUD conditions outlined in section 906 shall be enforced. The development shall extend along the entire property. All exterior elevations of all buildings shall be submitted to the Mayor and Council for final approval. The developer shall install an additional lane on Walnut Grove Parkway to accommodate increased traffic. Sidewalks shall be installed on the entire property. Side walks should be a minimum of 6 feet in width.

F. PROPOSED AMENDMENTS TO THE 2012 ZONING
ORDINANCE FOR THE CITY OF WALNUT GROVE RELATE
TO ARTICLE IX (TABLE OF USES) TO ALLOW A BED IN
BREAKFAST IN A1- Joe Walter explains that the amendment
would allow the bed and breakfast in AG zoning which is
currently not allowed. Stephanie Moncrief inquired about the
special stimulations in the ordinance and Joe Walter read them
off as follows: Section 901: The lot area shall be no less than
25,000 square feet of floor area within the dwelling. The
operator of the establishment shall reside on site. No guest
shall reside in the bed and breakfast for an excess of 14 days.
Guest rooms cannot be equipped with cooking facilities. These
stipulations are put in place, so it does not become an
extended stay. Stephanie Moncrief asked about the

requirements for serving food and the requirements. Joe Walter explained that the bed and breakfast must meet certain criteria for food safety.

- G. TEXT AMENDMENT TO ARTICLE 5 OF THE LAND
 DEVELOPMENT ORDINANCE TO AMEND THE DEFINITION
 OF AN "EQUIVALENT RESIDENTIAL UNIT" FROM 250 to
 210 TO MATCH CURRENT USAGE- This proposal was heard
 by the Planning Commission on May 18th, 2023. The intent
 was to modify a section of the land ordinance. The amendment
 would reduce sewer usage from 250 gallons per day to 210
 gallons per day which would free up sewer capacity and make
 room for more taps for future expansions. The average flow
 per dwelling is 189 gallons per day. This only affects residential
 and does not include commercial dwellings. Stephanie
 Moncrief requests a comprehensive plan and Major Moore said
 he will get the operator and Zoning Administrator to provide
 that information at the next meeting.
- H. Gas Station at Enclave- This was not originally on the agenda, but Mr. Coon asked to be heard and the Mayor accepted. The council needs to approve the exterior elevations for the gas station building on Highway 138. Mayor Moore asked Joe Walter if the council ever received an ariel view of the gas station site. Joe Walter says he will resend the information for review. Mr. Coon explains he will install sidewalks that extend to Forrester Cemetery Road for walking traffic that goes all the way to the Enclave. Mr. Coon says they will provide a drawing and site plans for the council members to review. Stephanie Moncrief asks where to find the information and drawings of the gas station. Joe Walter says he will make the information available the information he has to the council. Enca Miles inquired about the PUD and The City Clerk will send the PUD over to Erica Miles. There was discussion by Mr. Coon and the council members of the overall look of the gas station. Mayor Moore asked Mr. Coon to get all information needed over to the council as soon as possible for their review so the council can get it approved. The City attorney explained to the council that other counties have adopted regulations on architectural controls and the City of Walnut Grove should consider new ordinances to have the regulations.
- G. WALNUT GROVE MASTER PLAN- Mayor Moore asked the council if they have the updated Hall Consulting Plan that was submitted to Planning and Zoning. Stephanie Moncrief inquired about the rezoning of Kippy Clarke and Paul Jones and how we would move forward with that without the Master Plan. Major Moore says there is a comprehensive plan and a

downtown concept design plan. The Master Plan is supposed to take those two plans and incorporate sewer requirements, trails and other items and incorporate them all together. Mayor Moore says the council needs to consider rejecting the proposal from Hall Consulting and reach out to get more ideas on what they want to provide. Erica Miles did not agree and says that instead the council needs to agree on a concept plan prior to moving forward with a Master Plan. Hall Consulting was not available at this meeting and Stephanie Moncrief suggested that they are at a meeting to discuss the Master Plan. Stephanie is concerned that the concept plan is not what citizens want but she also believes that Hall Consulting could get the city where it needs to go with it's Master Plan. Erica Miles is very interested in continuing working with Hall Consulting but also believes we need to finalize our concept. Mayor Moore says we will set up a retreat with Hall Consulting to go over all of the information.

VII. **ADJOURN**- Stephanie Moncrief made a motion to adjourn. Linda Pilgrim seconded. Passed unanimously.

THE CITY OF WALNUT GROVE MINUTES COUNCIL MEETING

JUNE 8TH, 2023 7 PM

Mayor and Council

Elected Officials Present:

Staff Present:

Mayor- Mark Moore

Deputy Clerk - Sonya Cox

Mayor Pro Tem- Stephanie Moncrief

Public Works- Bryan Pilgrim

Council Member-Linda Pilgrim

Asst. Attorney- Jay Crawley

Council Member- Erica Miles

- I. Call to order- Mayor Moore
- II. Invocation- Jay Crawley
- III. Pledge of Allegiance- All Participated
- IV. Roll Call- All Present
- V. Agenda Approval- Mayor Moore made some revisions to the agenda. First under old business #4 Ethics Ordinance, first reading. Under new business #5 DDA appointment Joel Henderson, and #6 Text Amendments to the zoning ordinance to add B& B to Agriculture. And swap #1 under new business to the approval of the exterior of the PUD Dial Farms gas station. Add #7 City Clerk Open Records/ Custodian. Mayor Moore ask for a motion to approve the amended Agenda, a motion made by Council Member Miles seconded by Council Member Linda Pilgrim.
- VI. Consent Agenda-Motion made to approve the Consent Agenda by made by Council Member Linda Pilgrim, seconded by Council Member Erica Miles, Motion Carried.

- a. May 11, 2023, Council Meeting Minutes
- b. May 16, 2023, GDOT Tree Removal Discussion
- c. May 25, 2023, Council Work Session Minutes
- 2. FINANCIALS
- 3. INVOCES OF \$5000
 - a. PRECISION PLANNING- ZONING ADMIN. \$6520.23
 - b. SOUTHERN Sanitation- \$7068.00

VII. COMMITTEE REPORTS-

- 1. Community Involvement- Linda Pilgrim This coming Saturday is our second market of the season. We will have Touch the Truck, we will have Rainbowsy the Clown making balloon animals, we will be playing Corn Hole, Walnut Grove Lions club will be selling their hot dog plates and scoops will be here.
- 2. DDA REPORT- Erica Miles- We are going to appoint one more member so that we have a full board, and we have a work session on Tuesday.
- **3. Educational Involvement Committee-** Lots of camps going on around the city, teachers getting training since school is not in just not a lot going on.
- VIII. PLANNIN AND ZONNG COMMISSION- Chairman Don Cannon is not feeling well today. He did submit a library board appointment.

 So, we will get to that.

IX. Library Report- Dana Seger- I had a wonderful opportunity on Monday to help at Reading Camp at Walnut Grove Elementary School. The students, teachers, assistant principals, and Principal were wonderful to work with. I was even able to give out information to parents at the carpool drop off to get their children signed up for our Summer Reading Program. Each class I worked with from rising 1st graders to rising 4th graders were able to pick their favorite book to read together. The students were very excited to hear about our programs we have daily and weekly at the library.

We have already given away dozens of new books to children who have read at least 10 books this summer so far. This week's summer performer is the Ken Scott Magic Show. The magic show is tomorrow at 3:30. Next Friday, we have the Jason Clark Reptile Show and our new performer is the Exotic Animal Encounter through Iron P Homestead, which will be out to visit us in July. As a reminder we often get over 100 visitors for these performances, so be sure to plan to arrive early. But we activities planned all throughout the week, including a Father's Day Card craft event on Thursday. June 15th from 3-5.

We also have had amazing attendance for our weekly story and craft time with Miss Moore and often have between 40-60 patrons visit us. Also, our puzzle table continues to be a huge hit with patrons, and they often come completing a new puzzle each week. At the request of some parents and children, we are starting a brand-new program called Pokemon Swap so that our young friends can swap Pokemon cards and meet new friends. We also have a new Pokemon card pack to be given away the everyone in

- attendance will have an opportunity to win that has been graciously donated by one of the parents. We are also grateful for the support of our community. I would like to remind everyone that we will be closed Monday June 19th for the Juneteenth holiday.
- Public Comments- I am Andrea Gray my office address is 300 E. X. Church Street, Monroe GA, tonight I am hearing representing Reliant Homes and I know I sent you all a letter yesterday I am sure you have had a chance to read it so I want read you everything in it. But just in this short time I have for a public comment I did want to express my client's frustration with a lack of due process. In processing its application for a sewer variance under ordinance # 2021-09 for the ordinance all that is required is for the applicant to file an application and then city council takes a vote. It is not a zoning matter and does not require a planning commission. We are not trying to amend any ordinances; my client was a good sport and tried to work through the process the best that we could. But it seems one roadblock after the other keeps being thrown up in front of us and causing a significant delay which is increasing the cost of our project. And so, we inform the city to act to due process in this matter I think not adding it to the agenda tonight is going to make some decisions we did not want to make we wanted to work with the city on this. My client had actually met the requirements of the ordinance which is that we did file an application for a sewer variance that is zoned an R1 on our 171 acres. We showed in our application that there is not adequate sewer capacity to serve our full development, we showed that our project will support a sewer system, we've got two soil surveys from the health department and a letter demonstrating that we show that our clients will suffer a hardship if the variance is not granted figuring that there would be a great delay waiting for the city to upgrade there current sewer

capacity. And given that a sewer pump station would be required because of the grade of the property which would make it very expensive unless we ask for this variance.

Kerry Brown- 1400 Olympic Ct. Oxford, GA - Is there a reason why you have not addressed the variance. I would like them not to force them to have to connect to the sewer. If you force them to go onto the sewer you are going to increase the population density behind my house. Which is in turn going to increase the traffic on the roads around here, it is going to increase everything around here and I don't think that the City of Walnut Grove is ready for that at this moment in time.

XI. OLD BUSINESS-

- Rezoning Application for Forest Glen- Mayor Moore made a recommendation to remove the Zoning Application off the agenda for Forest Glen. Council Member Moncrief made a motion to remove Forest Glen off the agenda, seconded by Council Member Erica Miles, 2 voted to pass 1 opposed.
- 2. Emerald Cove Corrective Paving- Mayor Moore is leaving this under old business until it is resolved. Council Member Moncrief asks would this be a time to bring up as issue that I see in Emerald Cove that might affect the city. People are starting to put in cement, I noticed today they are tired of waiting.
- 3. Mayor and Council Member Monthly Stipend/Payment-Jay
 Crawley- It is not the first reading we are just running the add to
 be considered before the next council meeting. It has to run
 three times before action is taken. So, it will be on the July 13th
 meeting, it will run the last two weeks of June and the first week

- of July. **Council Member Moncrief-** Is that being done, I am sending this to Clerk.
- 4. **Ethic Ordinance** Motion to wave the first reading, Council Member Moncrief made a motion, seconded by **Council Member Erica Miles**, motion carried.

XII New Business

- Appearance of Exterior Frontage of Dial Farms, motioned made by Council Member Erica Miles to wave the first reading seconded by Council Member Linda Pilgrim, motion carried.
- 2. Case #WGV-23-02 First Reading- Applicant: Reliant Homes, LLC Owner bl investment company, llc address: Oak Lane/Cannon Farm Rd. Parcel # wg10265a00 variance request: variance from section 501.6 (c) (2) of the Walnut Grove Land Development Ordinance (connection to public sewer) Council Member Erica Miles made a motion to wave the first reading and have the public hearing on July 13th, seconded by Council Member Linda Pilgrim, motion carried.
- 3. Wainut Grove Master Plan- Hall Consulting Mayor Moore recommended that we table the master plan until Hall Consulting came come out and give us a more robust presentation of their proposal before a decision is made and I would like to recommend that we table that proposal until that happens. Council Member Erica Miles had a question about that, in Mr. Cannons report he stated that the Master Plan with Hall Consulting gave the price and the plan or the master plan it was under the assumption that we already had a downtown in place. The NEGRC plan we need to do something with that so

I would recommend waiving the 1st reading of the City Clerks Open Records Officer Mayor Moore Just for clarification isn't it already in our city ordinance that the city clerk is the records keeper. Jay Crawley It is but we are adding the retention schedule. Council Member Moncrief made a motion, seconded by Linda Pilgrim, motion carried.

- 1. Reports- Public Works- We are working hard to keep the grass cut; guys and I have got all of the flags up and we will be taking them down after fourth of July. We built a sign in the front of the Municipal Building to post agendas and notices, working on edging the curbing through town and getting ready for Saturday.
- 2. City Clerk- The citations where really down the month of May, we had 1 County Ticket, 4 State Patrols, 5 Pavilion Rentals, 14 Baseball field rentals and 19 Vendors for the Park Market on Saturday.
- 3. Mayor- I don't have much to add, there is the Park Market on Saturday should be a great event, Lions Club will be selling hot dogs come out and by some. Other than me doing the temporary clerk's duties trying to help Sonya, she has been a little overwhelmed. And we did find the missing posting and the tape and all in the bushes so hopefully we want to have to reschedule and fix the problem.

XIV. Town Hall

XV. Council Comments- Erica Miles- I am excited about the Park
Market and I am super excited about all the events going on at the
library, Dana is doing a great job and so is Bryan. I was happy to

that Hall Consulting has something to work off of. Mayor Moore ask for a motion to table this to the next work session, Council Member Moncrief made a motion to table seconded by Council Member Erica Miles seconded, motion passed.

4. Library Board Appointments-

- 1. Pierre Dupervil
- 2. Pamela Hobbs
- 3. William B. Oglesby
- 4. Linda Pilgrim
- 5. Vacancy
- 6. Sarah Tushshere

Motion Made to approve the appointments for the Library Board made by Erica Miles, seconded by Linda Pilgrim.

5. DDA Appointments

- a. Mayor Moore, we have a recommendation to the DDA to appoint Joel Henderson. Motion was made by Council Member Stephanie Moncrief and seconded by Linda Pilgrim, motion carried.
- 6. Text Amendment to Zoning Ordinance to change to allow a Bed and Breakfast in a Agriculture- Attorney Jay Crawley.
 - a. We need to wave the 1st reading because it is set to be on the July 13th agenda for a public hearing. Council Member Linda Pilgrim made a motion to waive the first reading, seconded by Stephanie Moncrief, motion carried.
- 7. City Clerk Open Records officer and Custodian-

Jay Crawley This is the first reading to update, or to make ordinance on how long to keep records based on state law.

see all of the flags up when I got back from vacation, makes me happy.

Linda Pilgrim- Just come out and enjoy our beautiful park on Saturday, play some corn hole, eat a hot dog get an ice cream hangout and play. We always have a good time we are going to be honoring our first responders we love them, and we appreciate them and thank them for all they do.

Stephanie Moncrief- Thanks for coming out tonight.

Motion to Adjourn- Motion made by Council Member Moncrief, seconded by Council Member Erica Miles, motion carried.

REQUEST FOR SEALED BID CITY OF WALNUT GROVE June 2, 2023

The City of Walnut Grove (City) is soliciting competitive sealed proposals from qualified vendors to provide engineering services required for the design of correcting errors caused by the repaving of the Emerald Cove subdivision within the City Limits of Walnut Grove, Georgia pursuant to the terms of a Resolution of city council dated May 11, 2023.

Proposals should be typed or submitted in ink and returned in a sealed envelope marked on the outside with the project identification, bid number and Company Name. Proposals will be received until July 7, 2023 at 5:00 P.M. local time, at the law firm of Powell & Edwards, P.C., 10 Lumpkin Street, Lawrenceville, Georgia 30046. Bids may be hand delivered or mailed to Powell & Edwards. Any bid received after this date and time will be marked as "late" and disqualified. After the time for receipt of proposals has passed, each submitted proposal package will be opened by the Mayor and Council at the next regular business meeting, on July 13, 2023. An initial bid tabulation documenting the Bid opening and listing Bidders will be available upon request on the next business day following the date of the proposal opening.

Questions regarding proposals should be directed in writing to Jay Crowley at jay@powelledwards.com no later than 5:00 PM on June 30, 2023.

The Proposals shall remain valid for a period of 60 days from bid opening. The City reserves the right to waive any formality and any technicalities, and to reject any or all proposals if it is deemed to be in the best interest of the City to do so.

The general scope of work is to design a cure plan pursuant to the terms of the Resolution dated May 11, 2023 including the process of curing the defects of paving on Emerald Drive & Crystal Court, feathering in the paving to the Emerald Cove Clubhouse, placing pavement markings where appropriate, and cleaning up loose asphalt debris on the roadways. Additional information for bidders, scope of work, and how to obtain other related documents may be obtained through the following contact:

Sonya,

Twice. Once on the next available date. Once two weeks after that date. We also need to post on our website and on glga.org.

Thanks so much!

Jay

Jay, This is the last I heard about this. To me this was a question if the council approved it or not. Then you said you would send it to me in a final form all packaged up and send it to me. This is why I ask you at the meeting on Thursday I believe it was if you ever sent it.

Sonya

All,

See the attached edited documents from our meeting last night. If these are okay with you all, I will get it in final form all packaged up and over to Ms. Sonya for execution.

Let me know if you have questions.

5/18/23 - PLANNING COMMISSION RECOMMENDED APPROVAL WITH APPLICANT'S CONDITIONS - SEE ATTACHED

Variance Report Case #WGV-23-02

Report by: Joe Walter, Zoning Administrator

Date: April 18, 2023

Hearing Date

Walnut Grove Planning Commission: April 20, 2023

Walnut Grove City Council: May 11, 2023 (tentative)

New Hearing Date May 18, 2023

General Information

Applicant: Reliant Homes, LLC

Owner: 81 Investment Company, LLC

Size: 170.63 acres

Location: Oak Street/Cannon Farm Road

Tax Parcel #WG010265A00

Existing Zoning: R-1

Proposed Development: 92 single family residential uses on individual septic systems

Requested Variance: Relief from the requirements of <u>Section 501.6.B</u> of the *Walnut Grove Land*

Development Ordinance.

Background

In 2021, the City of Walnut Grove amended the *Land Development Ordinance* to include several new sections related to the sewer system (Ordinance #2021-09, <u>Sections 501.6 through 501.9</u>). <u>Section 501.6.A</u> requires that new residential, commercial, industrial or other structures for human habitation must connect to the sewer system unless they are exempted by one of the criteria in <u>Section 501.6.B.</u> The City may grant an exemption permit from the public sewer system if two conditions are met:

- 1. The applicant provides evidence of an Approved Alternative Method for treatment of sewage; and
- 2. The structures(s) to be built are located farther away from a sewer main or the sewer plant than the distances listed in the Table in <u>Section 501.6.B</u> (Table attached as an exhibit).

The subject property was reviewed and approved for a single family subdivision in 2006, but I do want to point out that any approvals would have been granted under the previous *subdivision ordinance* and *1997 Zoning Ordinance* and that the plans have not been reviewed under the current *2007 Land Development Ordinance* and the *2012 Zoning Ordinance*. The applicant cannot complete the design plans for the property until this variance has been addressed because the sewage disposal method must be accounted for in the arrangement of streets, lots and utilities. No approvals will be given for any development on the site until all of the plans have been approved and all fees paid to the various agencies.

Applicant's Intent

The applicant is representing an LLC that owns a 170.63 acre tract located in Walnut Grove that has frontage on two public streets (Oak Lane and Cannon Farm Road/Old Hwy 81) and abuts the Walnut Grove Wastewater Treatment Facility. The subject property was previously submitted and approved for permitting as the Diamond Creek Subdivision in 2007, but was never developed. The applicant has approached the City about resubmitting the project for review and approval. In the course of the discussions, the applicant was made aware of the changes to the City's Land Development Ordinance regarding connecting to the sewer system. The Applicant has submitted an application to request relief

Reliant Homes, LLC Sewer Variance 4/18/2023 Page 2

from the requirements of <u>Section 501.6.B.</u> The subject property abuts the Walnut Grove Wastewater Treatment Facility; and, therefore would be required to connect to the sewer system.

<u>Section 501.6.C</u> provides two avenues to request a <u>variance</u> from the connection requirement; one (1), subdivide a property into nine or fewer lots of five acres or more, as was the case with the Highland Properties lots on Forrester Cemetery Road; or two (2), claim a "Substantial Hardship" by presenting clear and convincing evidence of meeting one of three criteria regarding sewer availability and costs, which will be outlined in the following section.

Variance Criteria

From Section 501.6 C. Variance From the Sewer Connection Requirement.

This mandatory connection requirement may be waived by official action of the Mayor and City Council of the City of Walnut Grove by the granting of a variance provided the applicant is able to meet all the following conditions:

- 1. When a property is a single lot or a parcel subdivided into nine (9) or fewer lots, a variance may be granted if the following criteria are followed:
 - a. The requirement to connect to the city sewer systems creates a substantial hardship on the applicant;
 - b. The applicant agrees to build residential homes which have a minimum of 3,000 square feet of heated floor space;
 - c. The applicant for a variance agrees to develop the property with lots of at least 5 acres of land per lot; and
 - d. The owner demonstrates that an Approved Alternative Method of sanitary sewage disposal is effective.
- 2. A variance may also be granted by the Mayor and City Council if the applicant is able to demonstrate a "Substantial Hardship". To prove a Substantial Hardship, the owner must demonstrate that the owner's property will support an Approved Alternative Method of sanitary sewage disposal. In addition to supporting an approved alternate method of sanitary sewage disposal, the owner must demonstrate by clear and convincing evidence one of the following:
 - a. The cost of constructing the sanitary sewer connection exceeds the average cost of a connection by a factor of 10 times, or
 - b. the City has no available sewer treatment capacity in the Walnut Grove sewer system,
 - c. or no available sewer taps which have not been pledged to binding reserve capacity agreements with other third parties.

If no sewer taps are available, no variance shall be granted to any applicant until the applicant has exercised all rights in any reserve sewer capacity or reserve sewer tap agreements with the City of Walnut Grove, Georgia.

Analysis of Variance Request

The applicant has submitted evidence in the attached application to demonstrate that they are of the opinion that they meet one or more of the criteria listed in the "Substantial Hardship" category. The applicant has submitted information from the Walton County Environmental Health Department

Reliant Homes, LLC Sewer Variance 4/18/2023 Page 3

indicating that the Approved Alternative Method of sanitary sewage disposal has been approved on the subject property in the past AND that the City does not have available sewer capacity (Criteria #2b from above). The letter from Walton County EHD is dated December 2, 2005 gave preliminary approval for the development with a number of lots needing additional study. However, this is typical for this type of development. There are several sets of correspondence presented between the applicant and the City regarding sewer capacity and the timing of the City's expansion of the system. In the application package, the applicant also included some additional information about budgeting and scheduling regarding the sewer system expansion.

The applicant has also made the case that to wait until the city has developed sufficient capacity would cause a significant delay in the development cycle, with a corresponding increase in the costs. The more expensive the lot development cost, the more expense the final product will be for future buyers. The applicant has also indicated that it would be in the City's best interest to save the sewer capacity for commercial development in the town center areas. The applicant's letter of intent contains more detail about the costs of development and waiting to develop.

Finally, the applicant discussed the practical difficulties of installing sewer on the property due to a pump station and force main being need to lift the sewage to the City's treatment facility, combined with the likelihood of rock in the area making sewage line installation more difficult (and more expensive). The layout of the property, with a creek bisecting the land does make it impossible to gravity flow sewage to the city's pump station. Although not mentioned in the application, sewered lots are usually much smaller than 40,000 square feet in size. To make the cost of development work with sewer, the property would have to be rezoned to a zoning district that would permit much smaller lot sizes and a higher density, which would introduce many more lots into the area and would have a significant impact on the adjacent roadways, school system, utilities, etc.

Conclusion

The applicant has stated their intent to develop the subject property into a residential subdivision with approximately 92 lots. The plans were previously approved in 2006 with individual septic tanks to treat sewage. Any approvals given in 2006/2007 are null and void and any development on this property would have to be reviewed and approved under the current City ordinances. One of those new ordinances indicates that development must connect to their sewage system if certain conditions exist and the subject property abuts the wastewater treatment facility, which triggers the connection requirement. The applicant did not elaborate on why they did not pursue obtaining a permit prior to the adoption of the new sewage connection requirements.

The City is in the process of expanding the sewer system and knows that more capacity is needed due to the anticipated demand in the Town Center area. There are plans being developed to expand beyond 0.1 MGD to 0.5 MGD, but time is needed to obtain permits and secure funding needed to construct the improvements. The applicant has submitted compelling information that a "Substantial Hardship" does exist, given the location of the property being below the elevation of the treatment facility and the length of time needed to wait upon sewer capacity.

Any variance approved on the subject property should include these conditions (Note - when Applicant is used, the term shall mean the current applicant or any successors in title):

1. Applicant must submit all required subdivision development plans to the City of Walnut Grove and other agencies for approval within one (1) year of the date of approval of the variance.

- 2. Applicant's plans should include a transitional zoning buffer of 25 feet between any lots that abut the Walnut Grove Wastewater Treatment Facility. No land disturbance will be allowed in the 25 foot buffer except for perpendicular utility crossings as needed.
- 3. Any amenity area proposed for the subdivision must be built with the first phase of the development, if multiple phases are proposed.
- 4. Applicant must obtain approval from Walton County for access onto Cannon Farm Road/Old 81 and will fund any improvements required by the County to improve the roadway along the property frontage and to the intersection of Youth Jersey Road and/or Hwy 81.
- 5. Applicant shall dedicate a 25' wide utility easement to extend from the common property line with the Walnut Grove Wastewater Treatment Facility to the nearest public street within the development for future use. The location of the easement will be decided at the time of the submission of subdivision development (preliminary plans).
- 6. The submitted plans will include a 20' wide no access easement along all lots that abut Oak Lane.
- 7. Subdivision development plans must show compliance with the requirements of the Cornish Creek Watershed Protection Overlay District WP-1.

CASE #WGV-23-02 CONDITIONS AS RECOMMENDED BY PLANNING COMMISSION -SEE CASE REPORT FOR STAFF CONDITIONS.

CONDITIONS ACCEPTABLE TO APPLICANT

- Applicant agrees to Conditions 1, 2, 3, 6, and 7
- Applicant requests the following updates to Conditions 4 and 5
- Condition 4: clarify that the Applicant will fund, if necessary, the County ROW improvements (not GDOT improvements)
- mutually agreeable location. easement and the proposed location. Applicant is not opposed to granting an easement in a Condition 5: Applicant would like further clarification on the purpose of the 25-foot sewer

5/18/23 - PLANNING COMMISSION RECOMMENDED APPROVAL AS PRESENTED

April 17, 2023

Walnut Grove Planning Commission c/o Mr. Don Cannon, Chairman 2581 Leone Avenue Walnut Grove, Ga 30052

Re: Proposed Amendments to the 2012 Zoning Ordinance for the City of Walnut Grove related to Article IX (Table of Uses)

Commission Members:

At the last Planning Commission meeting, one of the action items for me to prepare was a text amendment to the Zoning Ordinance that addressed the Bed and Breakfast Use and the allowable zoning districts. The City has received a Business License application for a bed and breakfast use for a property in the AG district. Currently, Bed and Breakfast Uses are not permitted in the AG zoning district per Article IX (Table of Permitted and Conditional Uses). I have included a snippet from the Table of Permitted and Conditional Uses below:

| Uses | Supl. Use Stds. | AG | 쪼 | R2 | 73 | 0) | ō | 0-2 | M-1 |
|--|-----------------|-----|--------|-------|---------|-----|----|-----|-----|
| | C | omm | ercial | and R | etail U | ses | | | |
| Automobile Brokerage | Y | | 1 | | | | | C* | P* |
| Automobile Customization, Modification and Rebuilding | | | | | | | | C* | P* |
| Automobile Parts Store (with Installation) | | | Щ | I | | | | Р | Р |
| Automobile Parts Store (without Installation) | | | | | | | | Р | Р |
| Automobile Repair Shop, Lubrication and Tire Store | | | | | | | C* | P* | P* |
| Automobile Sales and Related Service | | | | I | | | | P* | P* |
| Accessory Uses and Structures | | Α | Α | Α | Α | Α | Α | Α | Α |
| Bed and Breakfast Inn | Y | | | | C | С | C | P | |
| Bicycle Shop | | | | | | - | | Р | |

Based upon the discussion at the previous meeting, and based upon a recent meeting with Chairman Cannon and Mayor Moore, I am presenting several changes to <u>Article IX</u> for your consideration:

Note: **Bold, highlighted** text indicates proposed additions to the text. Strikethrough text indicates proposed text to be deleted from the Ordinance.

1. Changes to the <u>Commercial and Retail Uses</u> portion of the <u>Table of Permitted and Conditional</u> Uses relating to Bed and Breakfast Inns:

| Uses | Supl. Use Stds. | AG | R1 | R2 | R3 | 01 | C-1 | C-2 | M-1 | | |
|----------------------------|-----------------|----|----|----|----|----|-----|-----|-----|--|--|
| Commercial and Retail Uses | | | | | | | | | | | |
| Bed and Breakfast Inn | Υ | Р | | | C | С | С | Р | | | |

This proposed change would permit Bed and Breakfast Inns as a use by right in the AG district if the use/parcel can meet the supplemental standards. The change would also remove Bed and Breakfast Inns as a Conditional Use from the R3 district, with the reasoning that the only R-3 zoned parcels in the City would not meet the supplemental.

2. Several Housekeeping changes to correct the terminology in <u>Article IX</u> relating to Conditional Uses (i.e., the term <u>Special Use</u> is used incorrectly; it should be <u>Conditional Use</u>).

Wherever the term "Special" is listed in relation to a use required and additional zoning review, the term shall be changed to "Conditional" to more accurately reflect the correct terms.

These amendments will be discussed in a public hearing setting and formally recommended to the City Council at your May 18, 2023 meeting. Please let me know if you have any questions. Sincerely,

Joe Walter

Zoning Administrator

5/18/23 - PLANNING COMMISSION RECOMMENDED APPROVAL AS PRESENTED

April 17, 2023

Walnut Grove Planning Commission c/o Mr. Don Cannon, Chairman 2581 Leone Avenue Walnut Grove, Ga 30052

Re: Proposed Amendments to the 2007 Comprehensive Land Development Ordinance for the City of Walnut Grove related to Section 501.8 (Sewer Use Ordinance).

Chairman Cannon and Commission Members:

The Mayor has requested that the City Council consider an amendment to <u>Section 501.8 (Sewer Use Ordinance) Section I Definitions</u> – Definition (T) "Equivalent Residential Unit (ERU)," contained in the *Land Development Ordinance for the City of Walnut Grove*. The proposed amendment is listed below:

Note: **Bold, highlighted** text indicates proposed additions to the text. Strikethrough text indicates proposed text to be deleted from the Ordinance.

(T) "Equivalent Residential Unit (ERU)" shall mean a volume of water equal to the average daily usage of a typical single family residence of 250 210 gallons.

The request to lower the ERU calculation would free up additional residential sewer connections and allow additional customers to be connected to the City's system. The proposed ERU of 210 gallons (per day) is greater than the average residential daily flow at the City's wastewater treatment facility. More information will be provided ahead of the meeting regarding the reasoning behind the request and other technical data.

This amendment will be discussed in a public hearing setting and formally recommended to the City Council at your May 18, 2023 meeting. Please let me know if you have any questions. Sincerely,

Joe Walter

Zoning Administrator

VARIANCE APPLICANT'S DEMONSTRATION STANDARDS GOVERNING THE MAYOR AND COUNCIL'S POWERS & DUTIES

PURSUANT TO SECTION 1501 OF THE CITY OF WALNUT GROVE ZONING ORDINANCE, IN ORDER TO AUTHORIZE AN APPEAL OF THE ZONING ORDINANCE, THE CIY COUNCIL FINDS THAT A VARIANCE SHALL NOT BE CONTRARY TO THE PUBLIC INTEREST WHERE, OWING TO SPECIAL CONDITIONS, A LITERAL ENFORCEMENT OF THE PROVISIONS OF THIS ORDINANCE WOULD RESULT IN SUBSTANIAL AND UNNECESSARY HARDSHIP. A VARIANCE FROM THE TERMS OF THE ZONING ORDINANCE SHALL NOT BE GRANTED BY THE ZONING BOARD OF APPEALS UNLESS A WRITTEN APPLICATION FOR A VARIANCE IS SUBMITTED DEMONSTRATING THE FOLLOWING:

(PLEASE RESPOND TO THE FOLLOWING STANDARDS IN THE SPACE PROVIDED OR USE AN ATTACHMENT AS NECESSARY.)

(A) THERE ARE EXTRAORDINARY AND EXCEPTIONAL CONDITIONS OF THE PROPERTY IN QUESTION BECAUSE OF ITS SIZE, SHAPE OR TOPOGRAPHY:

The property is a large tract that can provide a large number of lots but the city does not have existing sewer capacity to service a development of this size. See attached supplemental information

| 1 | B | SUCH | CONDITIONS | ARE | PECULIAR | TO | THIS | PROP | ERTY: |
|---|---|------|------------|-----|----------------------------------|----|------|------|-------|
| ٦ | | | | | the second section in the second | - | | | |

The property adjoins the city.s property that contains the sewer treatment plant and spray fields. See attached supplemental information

(C) THE APPLICATION OF THE ORDINANCE TO THIS PROPERTY WOULD CREATE AN UNNECESSARY HARDSHIP

The city of Walnut Grove does not currently have enough residential sewer taps to provide sewer service for the project See attached supplemental information

(D) SUCH CONDITIONS ARE NOT THE RESULT OF ANY ACTIONS OF THE PROPERTY OWNER:

The city of Walnut Grove controls sewer capacity and does not have enough capacity to service the proposed development. See attached supplemental information

(E) A VARIANCE, IF GRANTED, WOULD NOT CAUSE SUBSTANTIAL DETRIMENT TO THE PUBLIC GOOD NOR IMPAIR THE PURPOSES OR INTENT OF THIS ORDINANCE:

A variance would not cause a detriment as it would not require the sewer system to be expanded, and also require builder to have larger lot sizes

(F) THE ZONING PROPOSAL IS CONSISTENT WITH CONSTRUCTION AND DESIGN STANDARDS AND CRITERIA ADOPTED BY CITY:

The zoning of the property is zoned residential which meets the future land use map adopted by the City of Walnut Grove.

(G) THE VARIANCE IS NOT A REQUEST TO PERMIT A USE OF LAND, BUILDINGS, OR STRUCTURES WHICH IS NOT PERMITTED BY RIGHT OR BY CONDITIONAL USE IN THE DISTRICT:

Supplemental responses for Variance Application Form

Page 5 if Variance Application

Variance Requested: Specifically, Applicant is requesting that the City grant it a variance pursuant to City of Walnut Grove Comprehensive Land Development Ordinance (the "Ordinance"), Section 501.6 (c) to allow it to use individual septic systems on a 92-large lot development which was previously approved by the City in 2006. The detailed justification for this request is in the Letter of Intent included with this application.

Page 6 of Variance Application

- A: The proposed development has lot sizes ranging from 1 acre to 3.6 acres which meets the State and Walton County Department of Health's requirements for a septic lot. The development was approved by the City in 2006 as proposed. The City does not have adequate sewer capacity to support the development. While the planning, funding, permitting and construction of a sewer plant expansion is prophesized by the City, the timeline is uncertain and is completely outside of Applicant's control. This variance is necessary for Applicant to use its property as it is zoned. Please see the Letter of Intent for additional information.
- B: The property is also at a higher elevation than the sewer plant which would require pump stations if sewer were available. The condition which is peculiar to this property is that sewer capacity is not available to service the 92-lots Applicant has planned for the development. This large-lot subdivision meets the requirements for septic systems under the State, County and City requirements. Please see the Letter of Intent for additional information.
- C: Applicant cannot use its property as zoned despite meeting the State, County and City requirements for per lot septic systems which prohibition on the use of its property as zoned is an unnecessary hardship which could be alleviated by granting this variance. The City does not have adequate sewer capacity to serve the 92-acre lot development. The timing of a sewer expansion is uncertain at best and Applicant has absolutely no control of if or when the expansion occurs. Please see the Letter of Intent for additional information.
- D: Applicant has no control over the City's permitting, planning, funding or construction of sewer capacity. Applicant does not have any reserved sewer taps. Applicant's development plans for a large-lot subdivision meet the State, County and City requirements for a per lot septic system. Please see the Letter of Intent for additional information.

- E: Additionally, the development will generate tax revenues for the City and the residents will help increase the demand for commercial development within the downtown area which will attract new businesses and help meet the City's goals for developing the downtown. The City will also not have to expend funds and time to plan, permit, design, fund and construct additional sewer capacity. Please see the Letter of Intent for additional information.
- F: The property is already properly zoned for a residential development and will be consistent with construction and design standards and criteria adopted by the City as of the date hereof. Please see the Letter of Intent for additional information.
- G: The variance does not relate to the use of the property. The property is zoned residential which is consistent with the proposed use. The variance request is to allow Applicant to proceed with its development with per lot septic systems given the City's inability to provide sewer capacity to service 92-lots. Please see the Letter of Intent for additional information.

Mayor Mark Moore and City Council Members 2581 Leone Avenue Loganville, GA 30052

Re: Variance Applicant Reliant Homes GA, LLC, as Owner of:

81 Investment Company, LLC 170.63+/- acres located on Old Hwy 81 and Oak Lane

Variance pursuant to Ordinance 2021-09, Section 501.6 (C) (2)

Dear Mayor Moore and City Council Members:

Reliant Homes GA, LLC as applicant and 81 Investment Company, LLC as owner of the property (collectively referred to herein as "Applicant") respectfully requests that the City grant it a variance pursuant to City of Walnut Grove Comprehensive Land Development Ordinance (the "Ordinance"), Section 501.6 (c) to allow it to use individual septic systems on the above-referenced development. Applicant meets the criteria for the variance and will face a substantial hardship if it is not granted as described in more detail below:

Background:

Applicant plans to construct a 92-large lot subdivision on approximately 170.63 acres zoned R1 on Old Highway 81 and Oak Lane in Walnut Grove, Georgia. The development, named "Diamond Creek", will have lots that range from 1 to 3.6 acres with homes which are between 2,000 and 2,700 square feet. This subdivision was approved by City Council in 2006 but due to the Great Recession, it was not developed. A copy of the approved site plan is attached hereto as Exhibit "A". Applicant purchased the property in 2020 and began planning and preparing to commence development. Applicant intends to start design and construction immediately, but it requires a variance from the City to allow it to utilize septic tanks as an approved alternative method of sanitary sewer disposal.

Support for Variance:

1. Inadequate Sewer Capacity

The City does not have adequate sewer capacity as of the date hereof to serve a 92-lot subdivision. Ordinance No. 2021-09, Section 501.6 (c) (2) states that a variance may be granted if the owner can demonstrate by clear and convincing evidence that the City has no available sewer treatment capacity in the Walnut Grove sewer system, or no available sewer taps which have not been pledged to binding reserve capacity agreements with other third parties. Pursuant to the permitting records published by the Georgia Environmental Protection Division, the City holds a sanitary sewer permit allowing a total capacity of 0.05 mgd (see attached Exhibit "B"). On October 5, 2022, Applicant sent an email to the City requesting clarification on the number of sewer taps/capacity available for its development and a number of other details necessary to evaluate waste disposal options. In an email dated November 16, 2022, Mayor Mark Moore stated, "the City of Walnut Grove has enough capacity to accommodate up to 35 homes." (See attached Exhibit "C"). This is not sufficient capacity to accommodate the 92 homes planned for Applicant's development. By email dated January 17, 2023, Mayor Mark Moore stated that the available capacity is currently 10,500 gpd. (See attached Exhibit "D"). According to Section 501.8 of the Ordinance, the Equivalent Residential Unit ("ERU") or the volume of water equal to the average daily usage of a typical single-family residence is 250 gallons. Using the Ordinance ERU, a sewer capacity of 10,500 gpd equates to 42 residential taps available, which is 50 less than the taps needed to accommodate the development. Applicant does not possess any reserved taps. The City stated that there are currently 50 reserved taps that it could potentially repurchase but provided no plan or timeline for doing so. Applicant must design the site in its entirety for one type of sewer system- it is not financially feasible to have part septic and part sewer due to the required installation of a pump station for this site. It must have a guarantee of sewer capacity to accommodate 92 homes prior to starting development. The correspondence from the City is clear and convincing evidence that as of the date hereof, there is not adequate sewer capacity to serve Applicant's development.

2. Indefinite Timing of Future Sewer Capacity

The City asserts that it plans to expand its sewer capacity in the future, but the timeframe for such expansion is uncertain and outside Applicant's control. Some of the factors that contribute to the uncertainty include:

 Permit modification: Expanding its sewer services would require government approvals including, at a minimum, a permit modification from the Georgia Environmental Protection Division to increase the permitted sewer treatment capacity. There is no set timeline for obtaining this approval and it is unclear as to if or when an application was submitted given that the City did not respond to Applicant's request for this information.

- Design, Bid, Build: An expansion also requires time to design, bid and construction the sewer project. According to the City's engineers, this process has not commenced.
- Funding: Funding is required to design and construct a sewer plant expansion.
 A review of the City's 2023 budget shows no line item for capital expenditures for the sewer plant. (See Attached Exhibit E).
- City Approvals/Ordinance Amendments: Increasing the sewer plant capacity would require City Council approval and updates to the City Ordinances which requires time.

Applicant's ability to use its property as zoned and approved by the City in 2006 should not be thwarted by the City's hope to increase sewer capacity in the future, especially when there is no evidence of a definitive timeline.

3. Approved Alternate Method

Applicant proposes to install a septic system for each lot. Each lot will be a minimum of 1 acre which conforms to both the Ordinance, the guidelines of the Health Department of the State of Georgia, and the Walton County Health Department requirements which require that lots be a minimum of 0.92 acres. A soil study was conducted in 2005 and updated in 2022 to ensure the review incorporates any changes to the regulatory guidelines for percolation rates. Both reports conclude that the soils are usable for a per-lot septic system. The reports are attached hereto as Exhibit F. On December 2, 2005, the Walton County Environmental Health Department issued a preliminary approval letter which is attached hereto as Exhibit G. Applicant will submit the 2022 updated study to obtain a permit from the Walton County Health Department for the proposed onsite septic system prior to development. Each lot will be designed to have a primary and secondary drain field that meets all standards required by the Georgia Department of Public Health's Manual for On-Site Sewage Management Systems. These designs will reviewed, approved, and septic permits issued by the Walton County Health Department prior to the Builder applying for building permits to the City of Walnut Grove. A representative septic lot plan is attached hereto as Exhibit "H".

4. Substantial Hardship

Applicant will face a substantial hardship if this variance is not granted due to the indefinite delay in constructing its project which will drive up the cost of the project and put its ultimate success at risk. Without a variance, Applicant will be forced to wait for the City to plan, fund, permit and construct a sewer expansion. This timeline is completely out of Applicant's control, and to some extent, outside the City's control. Given the current rate of inflation, raising labor and materials costs, and supply chain shortages, delaying Applicant's project will significantly increase the cost to Applicant. Over the past year, Applicant experienced the cost to development increase by 30-35%. For the proposed development, if this trend continues, Applicant expects to see the cost to develop each lot increase by \$15-20K per lot per year. That equates to \$1.38 mill to \$1.84 mill per year for this development. These costs will either force the Applicant to abandon

the project or increase the cost of the homes to the point they are likely to sit on the market for an extended time. This is an unnecessary hardship for the Applicant to bear given that there is an approved alternate method for managing waste that allows it to start its project immediately with no harm to the City.

Additionally, there is substantial practical difficulty which supports the variance. The property is at a higher elevation than the sewer plant and would require pump stations. Given the geographic location of the project and the fact that there are rock outcroppings, the property may have subsurface rock that would make running the sewer lines challenging. These site-based challenges result in further delay and uncertainty. Failure to grant the variance would severely limit Applicant's ability to use its property as zoned and approved by the City in 2006.

5. Other Considerations for the City

In addition to the grounds stated above, Applicant's variance should be granted as it will further the City's long-term goals of expanding its sewer capacity and short-term goal of utilizing sewer to attract commercial growth to the City. The 92-homes in the development will generate tax revenues that the City could allocate toward planning, permitting and constructing the expansion of its sewer capacity. These homes and new citizens will also help drive the demand for additional commercial growth which furthers the City's stated vision of creating a successful downtown area. In addition to creating demand for commercial growth, allowing Applicant to use a per-lot septic system rather than sewer frees up sewer capacity for the City to attract commercial developments. It also frees up the City funds which would have been used to expand the sewer system to be used on other expenses. Thus, granting this variance furthers the City's short and long-term goals and supports the general welfare of the community.

General constitutional objections

Georgia law requires that Applicant include in the variance application record a statement of constitutional objections to put the deciding board on notice of the Applicant's assertion of its constitutional and legal rights to the requested variance. In accordance with this requirement, Applicant asserts the following:

The current Ordinance requirement that Applicant utilize sewer for its development restricts said property in an unreasonable manner, is unconstitutional, null and void in that the restriction to the current sewer requirement affords the Applicant no reasonable use of the property and is the equivalent of a taking of the Applicant's property rights without payment of just and adequate compensation and without due process in violation of the Fifth Amendment and Fourteenth Amendments to the Constitution of the United States, and Article I, Section II, Paragraph I, and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the Council to approve the variance requested by the Applicant to permit a reasonable economic return on the Applicant's investment and a reasonable use of the property would therefore be unconstitutional, null and void and would be arbitrary, capricious and without a rational basis, thus constituting an abuse of discretion. Further, a refusal by the board would discriminate in an arbitrary, capricious, and unreasonable manner between the Applicant and owners of similarly situated properties in violation of the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States, and Article I, Section I, Paragraph II of the Georgia Constitution.

The continued application of the current sewer requirement to the property results in little or no gain to the public in general and fails to promote the health, safety, morals or general welfare of the public and does not bear a substantial relation to the objectives of the City of Walnut Grove, Georgia Zoning Ordinance, and would constitute a substantial reduction of the property value of the Applicant and is therefore confiscatory and void.

By filing this Statement of Constitutional Rights, the Applicant reserve all rights and remedies available to them under the United States Constitution, the Georgia Constitution, all applicable federal state and local laws and ordinances, and in equity.

Conclusion

Applicant respectfully requests that the City grant its request for a variance and allow it to move forward with per-lot septic systems consistent with the development's approval in 2006, the City's long and short-term goals, and the City's Ordinance. Forcing Applicant to wait for a possible future sewer expansion, which timeline is completely outside of its control, creates a substantial hardship and impedes Applicant from using its property as allowed under the current zoning.

Thank you for your time and consideration in this matter.

Kind Regards,

Ned Butler Vice President Reliant Homes

Letter of Intent Exhibit "C" November 16, 2022 Email from Mark Moore to Ned Butler

Ned Butler

From: City Mayor <mayor@cityofwalnutgrove.com>
Sent: Wednesday, November 16, 2022 3:47 PM

To: Ned Butler

Cc: Jimmy Parker; Joe Walter

Subject: RE: Follow up to the meeting on Diamond Creek

Good afternoon Ned,

Just to recap our meeting, The City of Walnut Grove currently has enough capacity to accommodate up to 35 homes. The plan is to expand our capacity to accommodate another 50,000 gpd to 60,000 gpd by summer of 2023. This will give us the additional capacity to accommodate another 150 homes, totaling 185 homes for your project. Since the new water saving requirement are constantly being updated we may be able to accommodate more sewer flow with our current system. We will need a sewer capacity requirements and time schedule on your project from Reliant Homes to make a final recommendation.

Our current ordinance will only allow a minimum of a 5 acre lot with a 3000 sqft heated space to qualify for a septic system.

I hope this answers your questions,

Mark Moore Mayor

City of Walnut Grove 770-787-0046 Mobile: 678-983-9323

Letter of Intent Exhibit "D" January 17, 2023 Email from Mark Moore to Ned Butler

From: City Mayor <mayor@cityofwalnutgrove.com>

Sent: Tuesday, January 17, 2023 5:11 PM

To: Ned Butler < nbutler@relianthomes.com >; City Clerk < cityclerk@cityofwalnutgrove.com >

Subject: RE: Follow up to the meeting on Diamond Creek

Good afternoon Ned,

The City of Walnut Grove currently has 10,500 gpd, or to my understanding, utilizing the 210 to 250 per home, enough capacity to accommodate between 42 to 50 homes. We have currently have 100 home in service and 50 homes that the taps have been purchased. We do have the right to purchase back the taps if needed. The plan is to expand our capacity to accommodate another 50,000 gpd to 60,000 gpd by summer of 2023. Since the new water saving requirement are constantly being updated we may be able to accommodate more sewer flow with our current system. We will need a sewer capacity requirements and time schedule on your project from Reliant Homes to make a final recommendation.

Our current ordinance will only allow a minimum of a 5 acre lot with a 3000 sqft heated space to qualify for a septic system.

I hope this answers your questions,

Mark Moore Mayor

REVISIONS

Letter of Intent Exhibit "G" December 2, 2005 Preliminary Approval letter from Walton County Enviro Health Dept

126-A Court Street * Monroe, GA 30655 * 770.267.1430 phone * 770.267.1451 (ex.

December 2, 2005

Mr. Kedrick Scott P.O. Box 477 Jefferson, GA 30549

Re: Diamond Creek S/D; 92 Lots

The preliminary plat has been reviewed and is approved for the above-mentioned project. This does not constitute a final approval. Walton County Environmental Health Services requires additional information and/or amendments to your final plat prior to this department's approval. As such, the additions are as follows.

- The following lots have higher than average "perc rates" and will need extra line: 10, 11, 12, 13, 14, 16, 17, 21, 22, 26, 27, 29, 30, 35, 36, 37, 41, 42, 46, 53, 55, 56, 60, 61, 63, 64, 65, 66, 69, 77, 78, 79, 80, 89, 90, and 91. Please stamp these lots "HPEL" and include the appropriate legend.
- 2. Due to spatial constraints, soil limitations, and/or topographical features, the following lots will require an engineered site plan at time of permitting: Lots 34, 38, 41, 64, 65, 66, 69, 80, 81, and 92. Please stamp these lots "SPHD" and include the appropriate legend.
- E. The following lots may require aerobic pretreatment or other means of producing Class I effluent: Lots 14, 53, 77, 78, 79, 80, 89, 90, and 91. Please stamp these lots "ATU" and include the appropriate legend.
- 4. Lots 30, 34, 41, 46, 63, 64, 65, 69, 77, 78, 79, 80, 82, 89, and 91 may require repairs to be drip emitter type systems. Please stamp these lots "DRIP REPAIR" and include the appropriate legend on the final plat.
- 5. Due to soil conditions the following lots require a Drip Emitter type septic system: Lots 33, 40, 66, 67, 68, 71, 83, 84, 85, 86, 87, and 88. Please stamp these lots "DRIP" and include the appropriate legend.

Once the above information is submitted, the health department will continue its review. These are preliminary comments and are subject to change upon receipt of additional information or final subdivision walk. If you have any questions or concerns with respect to this matter, feel free to contact this office during normal office hours.

Sincerely,

Chris G. Kumpick, EHS IV

Proposal to prepare the

Walnut Grove City Master Plan

City of Walnut Grove, Georgia March 22, 2023 Proposal Presented by:

March 22, 2023

Don Cannon
Walnut Grove Planning Commission
The City of Walnut Grove
2581 Leone Avenue
Loganville, GA 30052

Dear Mr. Cannon

Thank you for working with me to put together this scope for the Walnut Grove's Master Plan. I enjoyed talking with you and learning more about your city. I love working for communities that are close to home. I live and work up the road in Oconee County and greatly enjoy my ongoing work with the City of Monroe as they implement their ambitious work program. Our part of Georgia is experiencing considerable growth pressure and I am honored to be part of helping prepare our communities for growth. As such, I am delighted to submit this qualifications packet to complete the Master Plan for the City of Walnut Grove.

My name is Marilyn Hall. In 2005, I left a large consulting firm and started Hall Consulting, Inc. so that I could focus on planning for a small cities and rural areas. If selected I would be your project manager and primary contact. Bobby Sills, AICP, EIT is the founder of Nelsnick Enterprises, Inc. Mr. Sills specializes in Transportation Planning, Capital Improvements, Public Finance and GIS. The Hall and Nelsnick Team has more than fifteen years of working together creating great plans. In 2008, our plan for Moreland, Georgia won the American Planning Association's John Keller Award for Outstanding Planning Initiative for a Small Town or Rural Area.

We are thrilled to welcome the Maypop Collaborative (Maypop) to our planning team for the City of Walnut Grove's Master Plan. Melinda (Mel) Cochran Davis, founder of Maypop, is excited to bring her experience to the project. She brings a wealth of experience in trails and park planning and innovative public outreach to our team. Our project team offers a wide scope of planning experience in stakeholder engagement, strategic and capital planning, quantitative research and analysis, and mapping.

With the Hall-Nelsnick-Maypop Team you will be working directly with the owners of the companies, providing the highest level of efficiency and accountability. Also, because of our devotion to a smaller number of select clients, your plan would be among our highest priority. We are excited about working with you.

Sincerely,

Marilyn P. Hall President Hall Consulting, Inc.

1. QUALIFICATIONS

Making a plan that works for a local government requires some understanding of how a local government works and what it actually needs. Our team boasts extensive public service across an array of governmental services, including parks and recreation, planning and zoning, and public utilities. We draw upon those professional experiences as we collaborate with municipal clients, ensuring a final plan that is reflective of their unique needs and goals, and creative in its approach to solving problems with often-limited resources.

We have a wide scope of planning experience related to master planning, including stakeholder engagement, capital planning, quantitative research and analysis, policy development, and web-based interactive mapping. With the Hall, Nelsnick, and Maypop Team the City of Walnut Grove will be working directly with the owners of the companies, providing the highest level of efficiency and accountability. Also, because of our devotion to a smaller number of select clients, the City's plan would be among our highest. The combined experience of the three firms is substantial and includes dozens of Comprehensive Plans, multi-use trail network plans, parks and recreation master plans, capital improvements plans, public engagement initiatives, operational assessments, and strategic plans.

Members of the Hall, Maypop, and Nelsnick Team began developing plans together in the early 2000s. Hall and Nelsnick developed the nationally award-winning Comprehensive Plan for the City of Moreland, winning the 2008 John Keller Award for Outstanding Planning Initiative for a Small Town or Rural Area. Maypop's Mel Cochran Davis and Marilyn Hall worked together for more than a decade on capital planning, collaborative project implementation, community engagement, and SPLOST project proposal development for Athens-Clarke County.

HALL CONSULTING, INC.

Incorporated in the State of Georgia in 2005, Hall Consulting delivers expert planning and analysis, customized strategic plans, and award-winning comprehensive plans to municipal and county leaders in search of lasting community improvements on behalf of the families they serve. Hall Consulting's experience includes working in rural, suburban, and urban settings, with single jurisdictions, consolidated governments, and multi-jurisdictional bodies.

Hall Consulting offers a variety of products and services to government and utility professionals including urban planning studies and assessments, comprehensive planning services, master planning, capital improvements planning, and expert stakeholder engagement and community involvement activities. Our consulting engagements have included comprehensive plans, housing studies, expert witness testimony, annexation studies, conservation subdivision policies, strategic plans, and ordinance review designed to guide local jurisdictions with decision making.

Hall Consulting has a track record of building successful consulting teams. Team-members are specifically selected to meet the needs of individual clients. The team will be expertly managed. About our team one of our clients proclaimed, "This was the best handled and managed project the Town has contracted for the five years I have been here." (Robin Spradlin, Town of Sharpsburg, GA)

KEY LEADERSHIP:

Marilyn P. Hall, AICP

Ms. Hall has worked in comprehensive and environmental planning since 1997. She developed the award-winning Comprehensive Plan for the City of Moreland, GA. and has been recognized by the American Planning Association as an expert in drought planning and management. Her recent efforts have focused on project management, Comprehensive Planning, capital improvements, ensuring local policies and ordinances are consistent with State and federal requirements, and public engagement and outreach.

As Water Resources Planner for Athens-Clarke County, GA she created and implemented a new innovative water reuse program and helped negotiate the purchase of the Rock Hill Quarry as a future water storage reservoir. She also prepared the utility's long-term capital improvements program totaling \$400M.

PROJECT HIGHLIGHTS

Athens-Clarke County Leisure Services 2021-2025 Strategic Plan

Leisure Services Listens – A comprehensive online engagement tool.

Developed Athens-Community Corps job readiness program

Secured over \$675,000 in grant funds from state and foundation based grant agencies

MAYPOP COLLABORATIVE

Maypop Collaborative is committed to serving local governments. Our team consists of talented local government veterans who understand its day-to-day challenges: staffing shortages, tough decisions, budget constraints, public outcries, operational challenges, and whatever other obstacles the day brings. In addition, we realize how much influence consultants hold over long-term community decisions, and we are here to make sure you and your community are heard. We approach projects with flexibility and adaptability. We have been there, we understand the value of a community-informed product with longevity, and we are eager to put our knowledge into service. Together, we can do better.

As a boutique consulting firm, we build customized project teams to fit the needs of the work at hand. Our principal and founder, Mel C. Davis has an established reputation for building "dream teams" of high achievers driven by strong public service motivation and long histories of community engagement, collaboration, and problem solving. The Maypop model allows each member to work to their strengths and provide superior deliverables to our clients. As others that have collaborated with us in the past have said "Where there's a Mel, there's a way."

KEY LEADERSHIP:

Melinda Cochran Davis is a "Double Dawg" with a bachelor's degree in Landscape Architecture and a master's degree in Public Administration from the University of Georgia. While a part of the Athens-Clarke County Unified Government (ACCGov), Melinda directed the Planning, Project Management, Budgeting, Maintenance, Marketing, and Development functions of the Leisure Services Department, a multiyear winner of Georgia Recreation and Park Association's Agency of the Year award. During her tenure with Leisure Services, she led multiple planning efforts, including the department's first Strategic Plan, Greenway Network Plan, Park Improvements Plan, and multiple Park Master Plans. She also led the development of new enhanced digital an in person community engagement initiatives that became the model for the rest of ACCGov. Her leadership and collaboration with community members and local appointed boards resulted in Leisure Services securing over \$69 Million of SPLOST funds for improvements and expansion of parks, facilities, and multi-use trails.

NELSNICK ENTERPRISES

Incorporated in the State of Georgia in 2003, Nelsnick Enterprises is a woman-owned small business that provides planning services and instructional solutions for local governments and educational institutions. Nelsnick Enterprises provides consultation services for comprehensive, capital improvement, and financial planning; specific products include comprehensive plans, cost of service and connection fee studies, and cost allocation and rate studies. Nelsnick Enterprises also offers services related to instructional design and is adept at developing public participation plans that educate the community about the comprehensive planning process while gathering meaningful input from residents. It is headquartered in Athens, Georgia and there are no regional offices. Nelsnick Enterprises is comprised of two full time employees, Mr. Robert W. Sills, AICP and Ms. Natasha Barreto, both located in Athens, Georgia and a part-time engineer who works out of a home office in Gainesville.

KEY LEADERSHIP:

Ms. Natasha Barreto, President

Ms. Barreto has served as the President of Nelsnick Enterprises since 2009. Ms. Barreto has extensive experience in analysis of learning needs and systematic development of instruction. She has developed over 100 courses in the areas of criminal justice, healthcare, college accounting, business, psychology, and general education. Ms. Barreto has a strong background in Web-based instructional delivery. Ms. Barreto is the majority owner of the firm and has a master's degree in Instructional Design from the University of Georgia.

Mr. Robert W. Sills, AICP, Principal Planning Consultant

Mr. Sills has 26 years of professional planning experience, which includes collection and analysis of data for various city and public utility planning studies. These include comprehensive plans, storm water, water and sewer rate studies, capital improvements planning, impact fees calculations, revenue sufficiency analysis, water system business plans, connection fee calculations and development of financial planning models. Mr. Sills is a minority owner of the firm, is a certified planner from the American Institute of Certified Planners (AICP) with a master's degree from the School of Architecture and a master's degree from the School of Civil Engineering both from the Georgia Institute of Technology.

2. KEY TEAM MEMBERS AND THEIR ROLES

The Consulting Team consists of three firms that have successfully worked together on a variety of plans in Georgia. Marilyn Hall, AICP of Hall Consulting, Inc. would serve as the team's primary point of contact and project manager. She has more than 20 years of planning and utilities experience throughout Georgia. Bobby Sills, AICP, EIT is the founder of Nelsnick Enterprises, Inc. Bobby specializes in transportation planning, capital improvements, public finance, and GIS. Mel Cochran Davis, with the Maypop Collaborative rounds out the team, bringing experience in planning and digital transformation.

With the Hall, Nelsnick, & Maypop Team we will provide a balanced, focused approach to delivering an implementable Master Plan to Walnut Grove. Our experts will review current conditions in Walnut Grove, Walton County, and the region utilizing their individual professional expertise to recommend strategies, policies, and implementation measures. Their expertise and expected roles are shown below.

EDUCATION

Master of City Planning with emphasis in Environmental Planning Georgia Institute of Technology, Atlanta, Georgia, 1997

Bachelor of Arts in Economics Northwestern University, Evanston, Illinois, 1991 Ms. Hall will serve as project manager for Walnut Grove's Master Plan. She has worked in city and environmental planning since 1997. She is passionate about helping small cities and rural areas maintain their unique charm as they prepare for regional change and growth. Her recent efforts have focused on project management, comprehensive planning, environmental compliance, capital improvements, and public information and engagement. The following is a sampling of projects she has completed that demonstrate her planning expertise.

Projects

- o Historic Overlay District Plan, City if Bainbridge, GA
- Parks and Recreation Master Plan, Dublin, GA
- Principal consultant and project manager working on the Joint Comprehensive Plan for Madison County and the cities of Carlton, Colber, Comer, Danielsville, Hull, and Ila, Georgia.
- o Form Based Codes Education, Monroe, GA
- Principal consultant and project manager working the Comprehensive Plan Monroe, GA.
- o Completed \$400M Capital Improvements Plan for Athens, GA.
- Collaborated with Nelsnick Enterprises on the Comprehensive Plans for Morgan County and the cities of Bostwick, Buckhead, and Rutledge, Georgia.
- Completed the East Albany Neighborhood Revitalization Strategy Area Plan for the City of Albany, GA.
- Principal consultant and project manager working on the Comprehensive Plans for the Cities of Arcade, Jefferson, and Talmo in Jackson County, Georgia.
- Completed the South Columbus Revitalization Strategy for the City of Columbus, GA.
- Principal consultant and project manager for the Comprehensive Plans for the City of Waycross and Ware County, Georgia.
- Responsible for the Community Facilities Element of the Comprehensive Plan for the City of Columbus/Muscogee County, Georgia, and facilitation of several components of the Community Participation Program. (Under subcontract with another firm)
- Served as principal consultant and project manager for the Comprehensive Plan and Capital Improvements Program for the Sharpsburg, Georgia.

Marilyn P. Hall, AICP (cont.)

- Served as principal consultant and project manager for the Comprehensive Plan for the Town of Moreland, Georgia.
- Worked with Jordan, Jones, and Goulding, Inc. on the Comprehensive Plans for Newton County, Georgia and the Cities of Covington, Buford, and Snellville, Georgia.
- Worked with Jordan, Jones, and Goulding, Inc. to assist with the One Henry Comprehensive Plan in Henry County, Georgia. Responsible for writing population, community facilities, and natural and cultural resources components of Community Assessment. Also assisted with visioning and other elements of the Community Participation Program.

HALL CONSULTING, INC., Watkinsville, GA

Owner and principal planner. Planning project management, City master plans, comprehensive planning, urban and utility plans, housing studies, watershed planning, ordinance writing, demographic analysis, environmental program development and management, and outreach and public involvement. (2005 – Present)

UNIFIED GOVERNMENT OF ATHENS-CLARKE COUNTY

Senior Water Resources Planner. Long-term strategist ensuring adequate water supplies: create and manage ACC's innovative, new water reuse program, guide the utility's long term capital improvements program, manage research projects, assist with negotiations, manage the Water Conservation Office team, coordinate interdepartmental efforts, and implement special projects. (2017 – 2021)

Developed and implemented ACCGov public engagement processes and tools for the SPLOST and TSPLOST programs

Responsible for Online **Engagement for Leisure Services** activities for ACCgov. See example below.

Leisure Services Listens is a web based communications hub for the Athens-Clarke County Leisure Services Department. Maypop principal, Mel led the team that brought her vision to life. Project pages share information like project descriptions, timelines, budgets, and input opportunities. Storymaps, surveys, and other online engagement tools are available as they go live. Mel has brought this information sharing model to Maypop's community engagement toolbox.

Project Overview:

Momoral Plant is one of Affenter most beloved parks and requires necessary stormwarter infrastructure undetes to ensure faunce generations are sale to anythin community park. A most engineering report on the state of the stormwarter system in the park indicates the fall establish the park foreign the face. The increases in development around the park has resulted with increased stormwarter flow in other park, overloading the point's capacity. The point are foreign are now in a critical situation that requires readiging, are engineering, and significant repairs in order to prevent failure of these stormwarter mitigation components. The ancillary stormwarter pieck junites, basin, and other features are either sitted in, washed out, or have completely failed. As part of the improvements these annotation stormwarter practices and supplied to the proplement of the prop Memorial Park is one of Athens' most beloved parks and re

Athens-Clarke County residents are invited to be part of the process. Stay connected and fearn about project updates, p nput opportunities, and timelines.

What's Next for the Project?

Nelsnick Enterprises Incorporated Senior Planner September 2003 - Present

Jordan, Jones & Goulding Inc.
Urban Planner/Engineer/Project Manager
July 1995 – September 2003

Relevant Projects

- Comprehensive Plan for Monroe, Georgia Project include attending public meetings, development of plan elements per DCA specifications and relevant mapping.
- Comprehensive Plan for Morgan County, Georgia Project include separate stand-alone plans for the City of Rutledge, Bostwick and Buckhead. Project included complete planning process from Community Participation Program to adoption of plans.
- Developed Comprehensive Plans for the Quad City Planning Authority which included City of Talmo, City of Jefferson and City of Arcade, Georgia. Project included complete planning process from Community Participation Program to adoption of plans.
- Prepared Comprehensive Plan for the Town of Sharpsburg, Georgia and the Town of Moreland, Georgia.
- Developed a methodology for calculating school, water and sewer, and road impact fees, York County, South Carolina.

Bobby Sills - Continued

- Prepared population projections, water and sewer consumption projections, and cost estimates for various water supply options for the Long-Term Water Resource Plan, Glynn County, Georgia.
- o Completed a Concept Report for the City of Cartersville,
- o Georgia Main Street Transportation Enhancement.
- Updated the Land Use element of the Cartersville Comprehensive Plan for the City of Cartersville, Georgia.
- Wrote ordinances and created a Land Use Plan for Roane County, Tennessee.
- Managed the data entry of over 50 miles of surveyed sewer trunk line. Developed data entry forms in Microsoft Access, converted data, created scripts in ArcView GIS Avenue for manipulation of graphic and attribute data, and provided reports and maps. Survey included a surface reconnaissance for delineating wetlands, stream crossing, general conditions of manholes, clearing requirements, and manhole raising requirements, Fulton County, Georgia.

EXPERIENCE WITH MUNICIPAL PLANS

Comprehensive Plan for the City of Monroe, GA, Adopted June 2022

Contact: Logan Propes, City Administrator

Phone: 770-267-7536

Email: lpropes@monroega.gov

The Hall and Nelsnick team recently completed the Comprehensive Plan for the City of Monroe, GA. The City of Monroe is located in Walton County, approximately 40 miles east of Atlanta along US 78. Walton County is a historically rural area that has experienced significant growth pressure from metropolitan Atlanta in recent years. As its county seat and its largest city, these pressures have begun to be felt in Monroe, especially along the city's western side. Over the last decade the City of Monroe has developed and implemented a variety of plans. This Comprehensive Plan Update built upon those plans. Many of the plans being implemented by the city focus on downtown and adjacent areas. The *Town Center LCI* is perhaps the most important. It serves as the starting point for most of the City's efforts to preserve and redevelop its central business district.

Public engagement and input were the cornerstone of the successful comprehensive planning process in Monroe. The City kicked off the process by laying out the foundation in a Community Engagement Plan. The plan was introduced to the City Council at a work session on December 7, 2021. The project website was launched at the project kick off and provided meeting content and planning documents to the public throughout the life of the project. The website housed the online survey, visual preference survey, and meeting materials. The online survey asked a series of questions about the community and the vision for the future. Almost 300 people completed the online survey. The Steering Committee distributed flyers for public meetings and the Consultant team provided social media content for the City to utilize.

Oconee Rivers Greenway Network Plan Athens-Clarke County, GA (2013-2022)

Following years of incremental planning of segments of the Oconee Rivers Greenway system, Maypop's Mel Cochran Davis initiated a comprehensive update to those plans, drawing them together into a single vision for the county's trail system. The new plan resulted in a consistent approach to identifying corridors of interest in the watershed and prioritizing land acquisition and multi-use trail development. This framework has informed the construction of several miles of new trails, establishment of the first water trails on the Middle and North Oconee Rivers. To date, the plan has generated over \$45 million in SPLOST and TSPLOST funding as well as over \$300,000 in operational funds.

As Greenway Coordinator, and later Administrator for the Leisure Service Department's Park Services Division, Mel Cochran Davis led public engagement for the effort, which involved numerous public engagement sessions with citizens and landowners throughout the county, and consultation with local interest groups. The team also provided project management and design guidance on detailed development of various elements of the trail system and supporting park spaces.

Madison County Joint Comprehensive Plan with the Cities of Carlton, Colbert, Danielsville, and Ila, Transmitted January, 2023

Contact: Todd Higdon, County Chairman

Phone: 706-795-6300

Email: thigdon@madisonco.us

In January of this year, the Hall Consulting Team completed the Joint Comprehensive Plan for Madison County and four of its cities. Madison County is experiencing considerable growth pressure from Athens to the south and from I-85 to the west. In addition to this pressure, the county is struggling to balance the needs of agriculture, multi-generational landowners, business owners, environmentalists, and new residents. The Hall team addressed these challenges through robust public engagement that included more than a dozen public engagement opportunities, a website, surveys, a citizen stakeholder committee, a dozen stakeholder interviews, presentations at public events, and civic group engagements.

Comprehensive Plan for

Morgan County and the Cities of Buckhead, Bostwick, and Rutledge, adopted July 2017

Contact: Chuck Jarrell, Planning & Development Director

Phone: 706-342-4373

Email address: cjarrell@morganga.org

Hall Consulting, Nelsnick Enterprises, and another firm collaborated to produce the Comprehensive Plan for Morgan County, Georgia, including the Cities of Rutledge, Bostwick, and Buckhead. The team developed a community participation plan that included four public kickoff meetings (one per jurisdiction), four visioning workshops, public presentations of drafts, a community-wide survey, stakeholder interviews and informal interviews with the public, steering committee meetings, and assistance with the adoption process in each jurisdiction.

The Consultant Team took an innovative approach for this Comprehensive Plan. Rather than look at the functions, the Plan evaluates the issues. Thus, when the citizens provide concern for retaining the rural beauty of the County or the small-town character of their city, the plan addressed solutions based on land use, community facilities, housing, and intergovernmental cooperation.

The Hall Team goes to where the people are. This photo is of Marilyn Hall gathering public input at a 4th of July event in Madison, GA.

3. PROJECT UNDERSTANDING

The City of Walnut Grove is a small town located in Walton Count with a population of around 1,500 people, covering an area of approximately 1.5 square miles. It lies at the crossroads of State Routes 138 and 81. There is significant development pressure for a variety of reasons and there are many changes in the works. The purpose of the Master Plan is to help the city prepare for these changes. The following are three examples of upcoming changes that the plan must address.

First, the Georgia Department of Transportation is expected to install a roundabout aimed at improving traffic flow, reducing congestion, and enhancing safety in the area. Roundabouts are becoming more common in Georgia as a way to manage traffic and reduce the severity of accidents. The roundabout will displace several businesses that provide a significant tax base for the city.

Second, Walton County is building a very large park adjacent to to the City. The new park includes plans for a senior center, community center, tennis courts, skate park, etc. It will draw families from through Walton County.

Thirdly, the city has plans to develop a Town Center on some large parcels of land in the northeast corner of the Route 138 and 81 intersection. This is planned to be a new downtown with a mix of commercial uses and retail with multifamily residential and offices. Plans for the Town Center are being refined by the Northeast Georgia Regional Commission.

The new planned downtown, roundabout, and mega park will have a significant impact on the overall development and growth of the city. To prepare for the impact the Master Plan should address the following:

Land Use: The Master Plan must identify areas for residential, commercial, industrial, and recreational use. The DDA and city can work with developers to ensure that the land is used optimally and in accordance with the city's goals.

Transportation: The Georgia Department of Transportation has plans that will dramatically impact the city. The Master Plan will need to work with the GDOT changes and strive to improve mobility, reduce congestion and pollution, and enhance safety. The Plan could include improving public transportation in partnership with Walton County, pedestrian and bike paths, and roads.

Housing: Housing needs should be determined during the public engagement process. The Downtown Walnut Grove Concept Plan (2006) includes more than a thousand residential units. If the public engagement process calls for it, the Master Plan could focus on creating affordable housing options for low and middle-income residents. The DDA could work with developers to incentivize the construction of such housing.

Economic Development: The Plan must identify economic development opportunities, such as attracting new businesses, encouraging entrepreneurship, and creating jobs. The City and DDA can offer incentives to businesses that contribute to the city's growth and development.

Infrastructure: Walnut Grove must have the infrastructure to support the upcoming changes in land use and population growth. A primary purpose of this Master Plan is to prioritize capital improvements to accommodate change. The master plan can identify areas that require infrastructure improvements, such as water and sewage systems, public facilities, and green spaces.

Community Engagement: Engaging the community in the planning process is essential to ensure that their needs and priorities are addressed and the plan is implemented. The draft scope presented in the following pages elaborates the community engagement process.

4. PROJECT APPROACH AND PROPOSED SCOPE OF WORK

The Walnut Grove City Master Plan must be a partnership with Planning Commission, City Council, Downtown Development Authority (DDA), residents, business owners and other stakeholders. The most important aspect of a community vision is that it originates from the residents, business owners and elected leaders of the community. The consultant team's role is to listen, provide educational opportunities of the process, listen more, present what we hear, and listen again. It is an extremely iterative process requiring significant public participation.

Hall Consulting helped us achieve our goal of making our Comprehensive Plan viable and informative to our citizens. The professionalism of the planning team provided the confidence our plan needed for formulating future goals for our community."

Rick Jones, Planning Director,
 Columbus, Georgia

The final approach and scope of work will be created in collaboration with the City of Walnut Grove. The proposed approach and scope of work on the following pages should be considered a recommended or draft scope.

PHASE ONE: PROJECT KICKOFF

Task 1.1 Initial Meeting:

The Hall team will meet with the local project team, including staff from the City of Walnut Grove, to finalize project expectations, scope of work, and timeline. During this meeting, we will also review and finalize the list of data needs.

Task 1.1 Deliverables: 1) Final Data Needs List

2) Final Scope of Work and Timeline

Task 1.2 Community Tour:

The Hall team will tour the City with a local host to get further acquainted with the city and the local planning environment. This will include discussion with planning staff regarding existing local plans for the city, Walton County, and other entities, institutions, regional agencies, and significant public and private authorities with an impact on the larger planning effort.

Task 1.2 Deliverables:
1) Final Stakeholder List & Contact Information developed in collaboration with the city

Task 1.3 Community Engagement Plan:

The consulting team will develop a Community Engagement Plan (CEP) that outlines techniques and processes that will be used to gather public input. The CEP will include development of a visioning committee, key stakeholders to be contacted, number and schedule for community meetings/public hearings, and other key components for outreach throughout the project. The CEP will include a detailed schedule that includes dates, times, and locations for all participation opportunities, notification methods for outreach, engagement methods to reach diverse constituency, staffing plan, information collection and coordination methodology, steering committee role and strategy, and draft marketing and public presentation materials.

Although the Hall Consulting Team prefers to meet stakeholders in person, meetings can be virtual if needed. (Photo: Marilyn Hall hosts a virtual steering committee meeting in Atlanta, *GA*)

While specific elements of the CEP will be developed in coordination with the client, the consulting team anticipates a plan that includes the following public engagement opportunities:

- One (1) public project kick-off meeting/event outlining public engagement process;
- Two (2) public workshops to include identification of community vision, reformulation of community character area map and narrative, and strategic framework for implementation;
- Three (3) Visioning Committee meetings to be held early the project;
- One (1) Final presentation to the City Planning Commissioners
- One (1) Final presentation to City Council
- o Virtual online engagement opportunities, and

To maximize the effect of public engagement we will combine innovative, industry-leading techniques from multiple disciplines into a methodology uniquely suited to the master planning process in Walnut Grove. The details of the public engagement strategy will be developed in collaboration with city staff. The CEP will be developed according to the principles of our Public Engagement Philosophy outlined on the following page.

Task 1.3 Deliverables

1) Community Engagement Plan that includes education strategies, outreach strategies, workshop details, and timeline of all workshops and meetings.

Public Engagement Philosophy

Identify the Stakeholders

For a successful plan, one must have the right stakeholders at the table from the start, which is why one of our first steps in any client engagement is the identification of stakeholder groups. The stakeholders identified through this exercise are categorized as either primary, secondary, or general, which then determines their level of participation and the means used to reach out to them.

Primary Stakeholders – Essentially the project's steering committee, this group includes all key decision-makers

Secondary Stakeholders – Persons or organizations with experience or perspectives that will provide crucial input into or feedback on the plans

General Stakeholders – Members of the public with a general interest in the project

Public Participation

We understands some stakeholders may need education and other support to be able to participate fully and in a meaningful way. We tailor our public outreach and engagement in a way that facilitates informed discussion and that allows all voices to be heard. Because our process uses three feedback loops, there are opportunities for refinement and course correction throughout the process, rather than a single opening during the public comment period.

Active Listening

When interacting with the public, our team employs active listening techniques to ensure greater accuracy and accountability in the collection of residents' perceptions and comments. Active listening techniques also hold potential for conflict resolution and consensus-building.

Collaborative Review

Before a draft is published for public comment, it is internally reviewed in a collaborative process involving certain key stakeholders. Verification of facts and research ensures the legitimacy of conclusions and findings and provides opportunities for corrections prior to public review.

PHASE TWO: PLAN DEVELOPMENT

<u>Task 2.1 Community Engagement Process:</u> Based on the Community Engagement Plan, the consulting team will gather public input through in person workshops and online. Additional engagement opportunities may include written surveys administered online or in hard copy, focus groups, one-on-one interviews, and any other forms of outreach identified in the CEP. The consulting team will also hold Visioning Committee meetings as part of this Task. The Hall Team will prepare all materials for these meetings, including notices, flyers, and other advertisements, facilitate the meeting process and compile a written summary of each meeting for submission to the City.

Task 2.1 Deliverables:

- 1) All materials used in meetings
- 2) Detailed notes from all meetings

<u>Task 2.2 Current Conditions and Analysis and FLU Update:</u> Concurrently with Task 2.1, the consulting team will undertake a technical review of existing plans including the city's Comprehensive Plan, water and sewer master plans, transportation plans, park plans, other local plans, and other relevant national, regional, and local data sources. This information will provide a background for the community visioning workshops and other public outreach efforts and may consider the following:

- Population and Demographics
- Land Use and Development Character
- Parks & Recreation, including trails
- Community Facilities and Services
- Health and Wellness
- Schools
- Economic Development
- Transportation
- Historic Preservation
- Intergovernmental Coordination
- o Broadband Service
- Water and Sewer Service
- Housing

This was the best handled and managed project the Town has contracted for the five years I have been here."

- Hall and Nelsnick Planning Team Client

An important part of this task will be to update the Future Land Use Map (FLU) so it is consistent with the plans for the new roundabout and other recent changes. The FLU update will be based on public engagement results, input from the Visioning Committee, review of current conditions, and future projections.

Task 2.3 Needs Analysis

The consultant will combine the needs and concerns identified during the public engagement program and the results of Task 2.2. The Visioning Committee, the City, DDA, and others will assist the consultant in prioritizing the needs and concerns based on the vision and values articulated during the public engagement process. From this task, goals and strategies will be developed in Phase 3.

Task 2.3 Deliverable: Community Snapshot and Context of Change Presentation

Analysis of data and information

- Summary of relevant existing plans
- Prioritization needs to be addressed

PHASE 3: DEVELOP IMPLEMENTATION PLAN

Strategies, initiatives, and performance metrics for the goals articulated thus far will be developed in this task as defined below.

Task 3.1 Strategic Goal Setting

The consulting team will develop *Strategic Goals* for the community based on the needs prioritized in Task 2.3, community input, tours and site visits, quantitative research, and other findings. Evaluating and developing these goals will be an important assignment of the Visioning Committee.

Strategic Goals are results oriented, focused on desired outcomes, quantitative with numbers and percentages, easy to interpret, and credible.

Task 3.2 Initiatives and performance measures

The consultant will develop action statements that allocate resources to address goals and strategies from Task 3.1. Initiatives will include a scope, budget, timeline, and *Performance Metrics*. Performance metrics are quantitative indicators put in place to track the progress against stated strategies and initiatives. They are a useful tool for evaluating the success and effectiveness of the city's master plan. The specific measures that Walnut Grove will use will depend on the goals and objectives outlined in previous tasks. (See sidebar for examples)

Task 3.2 Deliverables: Draft documentation of goals, initiatives, and performance metrics.

<u>Task 3.3 Draft Master Plan:</u> The consulting team will hold a public workshop or event and will provide identical content online to present the content of the Draft Plan to residents, business owners, Planning Commission, City Council, and other stakeholders and solicit comments and feedback.

Task 3.3 Deliverables: 1) PPT of Draft Plan Presentation 2) All meeting materials

EXAMPLES OF COMMON PERFORMANCE METRICS

Economic indicators

job growth, business retention, and new business development

Environmental indicators
air quality, water quality, and
the amount of open space or
green infrastructure

Social indicators
public safety, health outcomes,
and access to affordable
housing

Transportation indicators
traffic congestion, public transit
ridership, and the number of
bike lanes or pedestrian paths.

Land use indicators
amount of land used for
residential, commercial, or
industrial purposes, as well as
the availability of affordable
housing.

Civic engagement indicators
voter turnout, participation in
public meetings and forums,
and the amount of community
input gathered during the
planning process.

<u>Task 3.4 Approval and Adoption:</u> After revising the Plan per the input received in Task 3.2, the consulting team will attend a meeting of the Walnut Grove City Council to present the final plan and respond to any questions.

<u>Task 3.5 Submission of Documents:</u> The consulting team will provide digital copies, in both editable format and pdf, and one loose reproducible original of the final plan and all other final printed materials including maps, charts, tables, and photographs.

5. PROJECT SCHEDULE

6. FEE PROPOSAL

The Hall Team proposes to complete the tasks presented above for a total of \$39,551. We propose two Add-Ons to the master plan. The first is a full update to the *Downtown Walnut Grove Master Concept Plan*. The second are detailed, small area character plans that include drawings and descriptions. These would help answer questions like, "What should the entrances to our new downtown look like?" and "How should we transition from the County's mega park to our town?" The Add-On fees assume utilization of the public engagement efforts from Phases 1 and 2 of the Master Plan.

| Phase 1 | Project Kickoff | \$6,980 |
|---------|--|--------------|
| Phase 2 | Plan Development | \$24,290 |
| Phase 3 | Implementation Plan | \$5,700 |
| | Project Management | \$2,081 |
| | Printing and Meeting Supplies | \$500 |
| | Total | \$39,551 |
| | | |
| | Add-Ons | |
| | Full update to 2006 Walnut Grove | \$6,000 |
| | Downtown Concept Plan | |
| | Detail Character Studies with drawings | \$2,000 each |

RESOLUTION NO. 2023-XX

A RESOLUTION TO DESIGNATE AN OPEN RECORDS OFFICER FOR THE CITY OF WALNUT GROVE, GEORGIA.

- WHEREAS, the City of Social Circle is a Municipal Corporation of the State of Georgia; and
- **WHEREAS**, the Walnut Grove is an agency subject to the Open Records Act of the State of Georgia; and
- **WHEREAS**, the Walnut Grove is comprised of various departments, boards, authorities and commissions; and
- **WHEREAS**, the Open Records Act of the State of Georgia permits an agency to designate Open Records Officers to receive requests for the inspection or copying of records; and
- **WHEREAS**, the Mayor and Council of the Walnut Grove believe that designating an Open Records Officers will centralize the open records process and will permit the City to more effectively and efficiently track and complete responses to open records requests;
- **IT IS HEREBY RESOLVED** that the Mayor and Council of the Walnut Grove, in accordance with the provisions of the Open Records Act found in O.C.G.A. 55-18-71 designate the following Open Records Officers to receive requests on behalf of the City and all of its departments:
 - (1) City Clerk
 - (2) In the absence of the City Clerk, the Mayor

shall serve as the Open Records Officers.

- **IT IS FURTHER RESOLVED** that the City requires that all written requests under the Open Records Act shall be made upon the Open Records Officers designated in this Resolution, and that a copy of the Request be sent by the Open Records Officer to the City Attorney.
- **IT IS FURTHER RESOLVED** that the City Clerk shall notify the Walton County Tribune and the Covington News, as the legal organs of the City and Walton County, that the City has so designated the Open Records Officers contained herein.
- **IT IS FURTHER RESOLVED** that the City Clerk shall ensure that the designated Open Records Officers and their contact information are prominently displayed on the City's website.

| IT IS SO RESOLVED this | _ day of | , 2023. |

ORDINANCE NO. 2023-

A ORDINANCE OF THE CITY OF WALNUT GROVE TO DECLARE A RECORDS CUSTODIAN AND AMEND THE CITY CLERKS DUTIES; TO PROVIDE FOR SEVERABILITY; TO REPEAL CONFLICTING ORDINANCES; TO PROVIDE AN EFFECTIVE DATE; AND FOR OTHER PURPOSES.

WHEREAS, the governing authority of the City of Walnut Grove, Georgia is the Mayor and Council thereof; and

WHERAS, the Georgia Records Act and the regulations thereto mandate certain record keeping practices; and

WHEREAS, record keeping is a duty of the City Clerk; and

WHEREAS, the Mayor and Council of the City of Walnut Grove believes it in the best interest of the public to amend its ordinances to reflect the laws of this State.

NOW THEREFORE BE IT AND IT IS HEREBY ORDAINED:

Section 1. That the Code of Ordinances of the City of Walnut Grove, Georgia is hereby amended by deleting Section 3-404 and Section 3-1301 of the City Ordinances and replacing it with the following:

"Section 3-404 Duties of City Clerk

The City Clerk shall have the following duties in his capacity as City Clerk:

- 1. To attend all meetings of the City Council;
- 2. To keep correct and full minutes of the proceedings of City Council together with all ordinances and resolutions passed by it, in a properly indexed book or register kept for that purpose;
- 3. To receive all applications or petitions made to the City and to place them before the Mayor and City Council at the meeting of the City Council next succeeding the receipt thereof;

- 4. To issue all licenses, and keep a record thereof, and all badges and permits authorized by the City Council;
- 5. To attend all sessions of the Municipal Court;
- 6. To keep an execution docket, in which he shall enter the names of all persons tried and fined by the Municipal Court, the nature of the offense, date of trial, amount of fine, and return of the police officer thereon;
- 7. To issue all summonses, processes, and subpoenas to witnesses that may be necessary in the enforcement of this code or other rules, regulations, and ordinances of the City Council;
- 8. To be the custodian of the City seal and affix its impression on documents whenever required, and;
- 9. To be the custodian of records and carefully preserve the records and documents belonging to the City which are not assigned to the custody of some other office in accordance with the Georgia Records act and the regulations thereto, and to maintain a proper index to all such records and documents so that ready access thereto and use thereof may be had.
- 10. To receive all money due the City Council, including taxes, licenses, fees, and other moneys belonging to the City and pay out the same only upon orders passed by the City Council and signed by the Mayor, or in his absence, the Mayor pro tempore;
- 11. To keep a book of accounts showing all money received on behalf of the City and the source and disposition thereof, which book shall be open for inspection by the public and members of the City Council;
- 12. To maintain a uniform system of accounts and keep such other records and accounts as may be required by statute or ordinance;

- 13. To furnish the City Council with quarterly statements detailing all receipts and payments of funds for the quarter; and
- 14. To enforce all laws of Georgia relating to the collection of delinquent taxes and sale or foreclosure for nonpayment of taxes to the City.

Section 3-1301 City Records

City records shall be maintained in accordance with the Georgia Records Act (O.C.G.A. §50-18-91 et seq)) and the regulations thereto including the Local Government Records Retention Schedules of the Georgia Archives composed by the University System of Georgia. All minutes shall be kept in physical notebooks. All other records may be digitalized as the City Clerk sees fit, so long as it is in compliance with the Georgia Records Act and the regulations thereto."

<u>Section 2.</u> The preamble of this Ordinance shall be considered to be and is hereby incorporated by reference as if fully set out herein.

Section 3. It is hereby declared that if any phrase, sentence, or paragraph hereof shall be found or declared unconstitutional or invalid by a court of competent jurisdiction, the remaining phrases, sentences and paragraphs hereof shall remain in full force and effect as if enacted without the phrase, sentence, or paragraph declared unconstitutional or invalid.

| Section 4. The effective date of this | Resolution shall be August, 2023. |
|--|-----------------------------------|
| It is so ordained on this day of Au | gust, 2023. |
